Subject: USS Lead Carrie Gosch School History

Hey Michael,

Sorry to keep looping you into this. Do any of our documents have a history of the Carrie Gosch school? I don't recall seeing anything, but thought you might know better. Jamie Brown mentioned off-hand that if it were constructed sometime in the last two+ decades there would have been an environmental assessment, but at first glance there's no public record of that from the City or the State. Thanks.

Best,

Leo
